

CITY OF CREST HILL FORESTRY PROGRAM

GUIDELINES

The City of Crest Hill is continuing a program to help encourage citizen participation in community reforestation and beautification. We are offering an opportunity for 50/50 participation by the city in the purchase of new trees. Guidelines for the program are as follows:

1. For the 2022-2023 fiscal year, the applications shall be granted based on the order received, without regard to the ward of the applicant, until funds are exhausted.
2. The City of Crest Hill will pay up to \$150.00 (50% of the cost provided by The Fields) toward the purchase of a tree in cooperation with the homeowner.
3. One tree will be allowed per household/address.
4. Homeowners and nonprofit groups will have the opportunity to participate in this program. Since budgeted funds are limited, if interest is high, a lottery will be held to determine those who will be given first consideration based on the available funds each fiscal year if applications are received simultaneously.
5. In order to offer this opportunity to the greatest number of residents, anyone who received a tree through this program the previous year will not be eligible for the current year.
6. Trees will be planted on property by the landscaper (The Fields). The one-year guarantee will be in effect directly between the homeowner and the landscaper. NO tree may be planted in the parkway.
7. The homeowner must pay his portion of the cost in advance before delivery will be made.
8. The City of Crest Hill will not be held responsible for any damage or restoration to private property incurred during the delivery or the planting of the tree.
9. Several types of trees will be offered for the program which are attached. The list and price of available trees will be updated each year.
10. A sketch showing the approximate placement of the tree must be submitted with this application.
11. Once the tree has been paid for, and a planting date is set, The Fields will contact JULIE and have the utilities located. NO TREES CAN BE PLACED OVER ANY UTILITIES INCLUDING WATER AND SEWER LINES.
12. Trees shall not be planted within a 20' radius of an existing utility structure i.e. manhole, hydrant, valve box, light pole, etc. as approved by the Director of Public Works.

If you have any questions regarding the tree program, please contact Mrs. Ada Martino at (815) 280-1624
